Skills

- Company Growth Strategies
- Strong Technical Knowledge
- Pre-Sales
- Relationship Management
- Negotiation
- Leadership
- Communication and Presentation
- Coaching & Mentoring
- Project Management
- Strategic Problem Solving
- Sales & Marketing
- Adaptable Mindset
- Analytical and data-driven approach
- Public Speaking
- A Forever Learner

Technical Account Manager

I am an accomplished Technical Account Manager with over 7 years of experience in the technology industry. With a strong track record of delivering exceptional customer service and driving revenue growth, I bring a deep understanding of complex technical solutions and a strategic mindset to ensure client satisfaction. My expertise lies in pre-sales activities, including product demonstrations, solution design, and proposal development. I excel in building strong client relationships, understanding their unique needs, and providing tailored solutions. With a customer-centric approach and a passion for delivering excellence, I am committed to driving customer success and exceeding expectations. If you are seeking a results-oriented professional with a strong technical background and exceptional client management skills, I am the ideal candidate for your Technical Account Manager or Pre-Sales role. Let's discuss how I can contribute to the success of your organization.

Familiar Software, Interfaces and Languages

- JavaScript
- MongoDB
- React.js
- Mongoose
- CSS
- OpenAI
- Chat-GPT3
- TypeScript
- GraphQL
- Node.js
- Apollo
- HTML
- SCSS
- Socket.IO
- Python
- Cloud Services (AWS)
- Django
- Git hub
- Git
- REST API
- Linux Bash
- Liquid
- NoSQL /SQL
- AWS Deployment
- Heroku Deployment
- Vercel Deployment
- Microsoft Excel
- Salesforce (as a user)

Personal Tech Projects

Chat-GPT3 Chatbot -2023

- <https://github.com/Jeremiah1582/ChatBot-GPT3>
- A fully working 3-tier scalable website, complete with basic analytics, login features, and personal messaging system

My Online Freelancer Portfolio -2022

- <https://bit.ly/3hUqo06>
- A fully working 3-tier scalable website, complete with basic analytics, login features, and personal messaging system

Xoom Streaming Application -2021

- <https://github.com/Jeremiah1582/xoom-videochat-app-sep2021>
- This application was a replica of the Zoom platform using Socket.IO

ZOE Healthcare Web Platform -2021

- <https://github.com/Jeremiah1582/zoiapp2021>
- This was a fun team project. An appointment booking system for the general public where they can keep all of their medical records securely online

Experience

Nov 2022-March 2023

DCI - AWS re/Start- CCP - Berlin Cloud Computing Student

In the AWS re/Start program, I worked on real-world scenario projects and collaborated with industry professionals to solve complex technical challenges. I developed strong problem-solving skills and a deep understanding of cloud computing, which I am eager to apply in my future endeavours. Click on the AWS badges above to get a deeper understanding of what the course involves and my competencies.

Sep 2021 - Present

Independent-Freelancer - (Remote) Developer

Working as a freelance Developer, using a collection of my Skills to help SME & e-commerce companies build and maintain their online presence.

Responsibilities:

- Build or update clients' webpages
- testing code
- Find and fix bugs
- Styling UI
- Making web stores responsive/ mobile compatible
- SEO

Aug 2020-Sep 2021

DCI -Code Bootcamp - Berlin Web & Software Development- Student

Attended a Full-time one-year code camp (8hrs a day 5 days a week). I was trained to be a Full-Stack Web/Software Developer, learning the concepts of computer science.

Education

2022-2023

AWS re/Start Cloud Practitioner
DCI Academy Berlin, Germany

2020-2021

Weiterbildung zum/zur Web- und
Softwareentwickler/in
DCI Academy Berlin, Germany

2019

Design Engineering and design
Thinking Course
Open University, Milton Keynes, UK

Language Skills

English: Native

German: B1

○ Nov 2016 - May 2019

ResearchGate GmbH - Berlin

● **Senior Sales Marketing Exec** Sep 2018 - May 2019

B2B role, establish relationships, build a personalised marketing plan that addressed the prospects' needs, wants and requirements.

● **Recruitment Project Executive** Nov 2017 - Sep 2018

In this project I was helping to develop a new product for Reasearchgate that would enable them to automate their recruitment advertising process.

● **Digital Advertising SaaS & STEM** Jun 2017 - Nov 2017

Qualify the prospect's challenges and create a marketing plan that would address the prospect's problem and turn the prospect into a client.

● **Sales Developer** Nov 2016 - Jun 2017

Identify the needs and wants of potential clients and pitch our solutions and arrange a Demo with one of our Digital Advertising Team.

○ Apr 2016 - Oct 2016

Quandoo GmbH - Berlin

Project Manager

The goal here was to establish Quandoo's remote sales unit in the UK from Berlin. This included creating sales strategies and pitches, working closely with the marketing team, establishing relationships with potential clients and acquiring new clients when the opportunity arose. The project started off as just an idea and our two person team was responsible for making that idea possible and profitable.

○ Sep 15 - Feb 2016

British Red Cross- London

Team Leader- limited contract

My role was to lead a team of fundraisers each day to reach a daily financial target. I would be responsible for taking necessary measures to ensure that we reached our specified target. Also served as Ambassador for the charity at certain events

○ Sep 14 - Jul 2015

British Council - Prague/Pardubice

English Teacher - Limited Contract

In this Role, I really enjoyed the aspect of helping others benefit from what life had taught me. My initial role was to teach and motivate the students, to encourage them to want to learn English, but it grew to be so much more. I became that "Cool Young Teacher" the students could talk, and express themselves, to. My role evolved and i aimed to teach the students how to accept themself through ART classes and how to participate in sports while speaking English. At the end of the semester, I and a few other teachers, arranged a school trip to London where we toured the city and experienced more of the culture that London had to offer.

○ Sep 14 - Jul 2015

deVeer Group- Moscow

Senior Business Developer

As the office was developing i often wore many hats, offering my previous experience in sales and recruitment to assist the developement of the companies Russian office. Initially my main role was to build the offices client portfolio but that quickly expanded into recruiting for the office and leading sales training sessions for the new starts.

○ Jan 2011 - Dec 2013

Credico- London / Glasgow

Senior Account Manager / Team Leader

Credico is a thriving direct marketing Company, offering their services to many blue-chip clients internationally. I started as a Junior Lead Generator and within 6 months received two promotions to Sales Consultant and then to Account Manager. Within 2 years of working with Credico, I had built and trained over 8 teams. And learned the foundational skills required for a career in Sales, Marketing and Team Leading. At the end of the second year, I was asked to help the company set up their Glasgow location to grow their customer base in the Scottish region. Here i wore many hats from Sales Consultant to Trainer, to Team and Account Manager and "inhouse" Recruiter.

Jeremiah Philip Brown, geboren am 01.04.1993

hat vom 28.11.2022 bis zum 06.03.2023 an unserem Institut an folgender Maßnahme teilgenommen:

AWS Cloud Consultant

Während der Maßnahme hat der/die Teilnehmende theoretische Schulungen im Bereich der AWS Cloudanwendung und – administration absolviert.

Inhalte:**Cloud Foundations – 240 UE**

Linux Fundamentals, Networking Fundamentals, Security Fundamentals, Python Programming, Databases Fundamentals, Agile Project Management, IT Support

AWS Core Services – 160 UE

Well-Architected Framework, Understanding-Systems-Operations-on-AWS, Tooling-and-Automation, Computing-Servers, Computing-Scaling-and-Name-Resolution, Computing-Containers-and-Serverless, Computing-Database-Services, Networking, Storage-and-Archiving, Monitoring-and-Security, Creating-Automated-and-Repeatable-Deployments

Cloud Practitioner Essentials Assessments – 30**UE Employability Skills and Event Sessions – 50**

Communication Skills / Handling Feedback and Criticism, Goal Settings, Digital Presence Personal Portfolio Project, Professional Relationships

Die Maßnahme beinhaltete 480 Unterrichtseinheiten Theorievermittlung und 120 Unterrichtseinheiten Mentoring.

Redux and Context API
Node.js and Express.js
Mongo DB and Mongoose
JWT and authentication methods
REST APIs
GitHub team workflow
Agiles Projektmanagement
Softwareentwicklung I - III
Tutoriumsmodul Web Development
Fortgeschrittene Datenbankentwicklung

Abschlussprojekt mit Praxisbezug

Praktikum (Internship Program DCI)

Erweiterte Kenntnisse:

Berufsbezogenes Deutsch

Statement of Completion

Jeremiah Brown

has completed the course including any mandatory tests for:

Design thinking

Issue date: 4 September 2019

www.open.edu/openlearn

This statement does not imply the award of credit points nor the conferment of a University Qualification. This statement confirms that this course and all mandatory tests were passed by the learner.

Please go to the course on OpenLearn for full details:
<https://www.open.edu/openlearn/science-maths-technology/engineering-technology/introduction-design-engineering/content-section-0>

COURSE CODE: T192_1

<https://www.open.edu/openlearn/science-maths-technology/engineering-technology/introduction-design-engineering/content-section-0>

Course summary

This course looks at the way in which engineers use ideas and approaches from the discipline of design thinking to inform their work. The complexity that people bring to design problems is introduced, along with some methods of dealing with such complexity.

Learning outcomes

By completing this course, the learner should be able to:

- Understand the broad scope of design
- Recognise the main drivers for design
- Describe how human variation impacts design
- Apply some basic concepts and methods from design to explore creative solutions to clearly defined real-world problems
- Demonstrate skills in communication, presentation, information handling and numeracy through the completion of activities.

Completed study

The learner has completed the following:

Section 1

Design beginnings

Section 2

Section 3

Design drivers

Section 4

Designing for people

Section 5

Conclusion

ZERTIFIKAT

DEUTSCH-TEST

FÜR ZUWANDERER

Brown

Name
